TECHNICAL SKILLS

Languages

· Python · Java · C

Frontend

React · Tailwind · HTML CSS

Backend

Node.js · Spring Boot · REST

AI / Cloud

Azure AI · CV · LLM APIs

DevOps

Git · GitHub Actions · CI/CD

CS Core

DSA · OOP · DBMS · OS

CERTIFICATIONS

Microsoft Azure AI Essentials

Professional Certificate —

Microsoft & LinkedIn · Apr 2026

Intro to Snowflake

LinkedIn Learning · Apr 2026

Practical GitHub Actions

LinkedIn Learning · Sep 2025

LANGUAGES

English Professional

Hindi Fluent

Nepali Native

Tamil Beginner

INTERESTS

Adventure sports — skydiving,

Paragliding, Horse Riding ·

PROFILE

Second-year CSE student at Rajalakshmi Engineering College with a track record of shipping AI and full-stack products independently. I build because I see problems worth fixing not because coursework requires it. Good in TypeScript, React, Node.js, and Python; comfortable across the full cycle from architecture to deployment.

INTERNSHIP EXPERIENCE

Java Programming Intern — InternPe

Jan 2026

- Completed Java programming tasks in a professional environment; demonstrated a consistent and self-directed work ethic.

PROJECTS

AI-Career-Navigator-2026

Feb 2026 – Present

TypeScript · React · Node.js · Multi-API integration

- AI platform that reads a student's GitHub, LinkedIn, LeetCode, and resume to generate a personalised career roadmap, solo end-to-end build addressing a real gap in developer career guidance.

UPI-Secure Pay

1st Jan – 20th March 2026

Python · Anomaly Detection · ML

- Real-time UPI fraud detection system built and shipped at HACK HUSTLE 2.0 (2026) in 24 hours; intercepts fraudulent transactions before funds leave the account.

Cattle-Breed-Recognition

10th Jan – 20th Mar 2026

Computer Vision · Python · Smart India Hackathon 2025

- CV model for cattle breed ID from field photos — submitted to SIH 2025 for India's national Bharat Pashudhan livestock registry.

Explainable AI Credit Scoring System

1st April – 30th April 2026

TypeScript – Python -

- An AI-powered credit decisioning platform that solves the "**black box**" problem in digital lending — with full explainability, fairness auditing, and tamper-proof logging for three distinct user roles.

ACHIEVEMENTS

- Smart India Hackathon 2025 — selected team, AI solution for national livestock app
- HACK HUSTLE 2.0 (2026) — fintech fraud detection under hackathon constraints
- 14+ public GitHub repositories; active open-source contributor across AI, mobile, and web

EDUCATION

- B.E. Computer Science Engineering**

Rajalakshmi Engineering College

Chennai · 2024 – 2028

- School Leaving Certificate(+2)**

Horizon Gautam Buddha Secondary School

Nepal · 2020 – 2022

- Secondary Education Examination**

Montessori Memorial Boarding High School

Nepal · 2020
